Remove all pieces from plastic frames. If you have difficulty, use safety scissors.

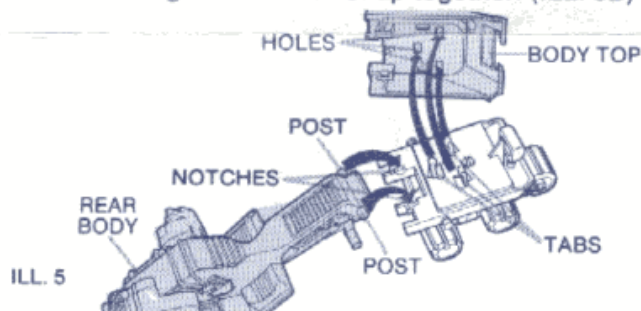

L.C.V. RECON SLED INSTRUCTIONS

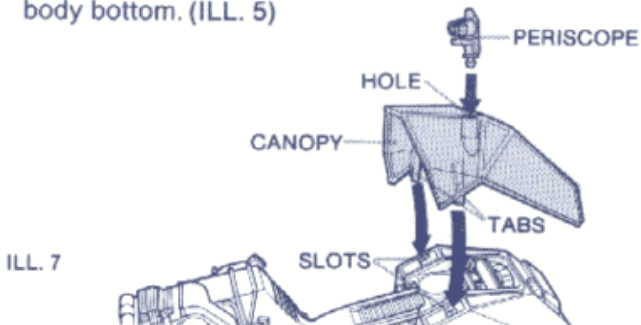

- 1 Squeeze 3 tabs on gun into hole in left body half as shown. (ILL. 1)

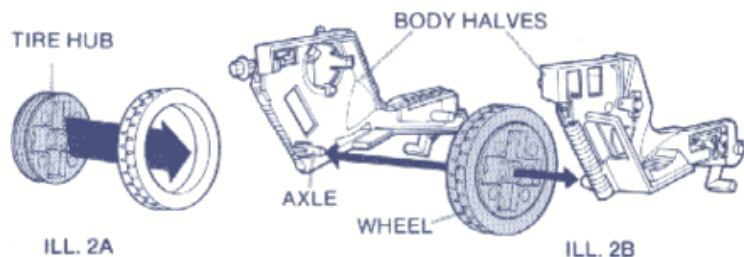

- 3 A Slide slot in engine over bar on rear while inserting posts into holes in body. (ILL. 3A)
B Insert axle on bogey wheel into hole in undercarriage half. Line up axle, posts and holes in undercarriages as shown. Snap together. (ILL. 3B)

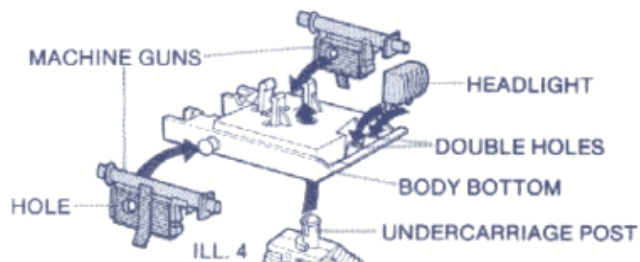

- 5 Position 2 posts on front of rear body into notches in body bottom. Snap holes in body top over three tabs on body bottom. (ILL. 5)

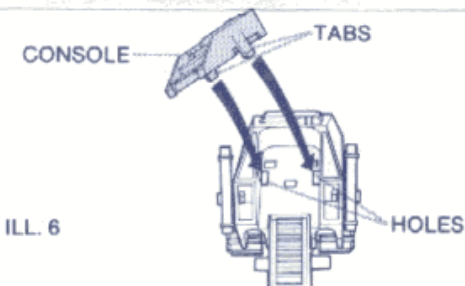

- 7 Insert tabs on canopy into slots in body top. Insert post 8 on periscope into hole in canopy. (ILL. 7)

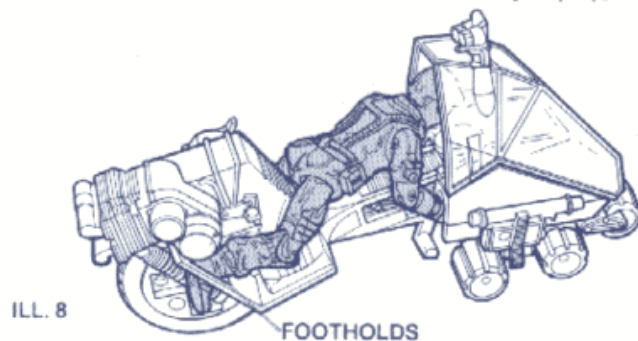

- 2 A Fit tire over hub as shown. (ILL. 2A)
B Place wheel over rear axle and line up left and right body halves. Snap together. (ILL. 2B)

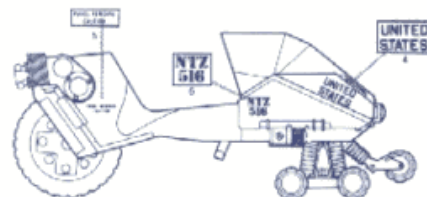

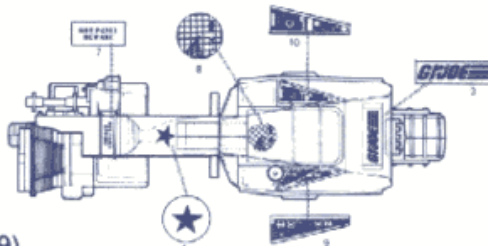

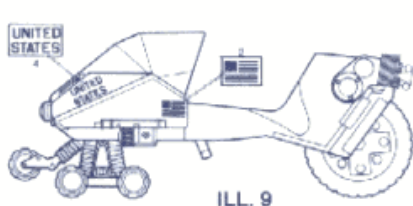

- 4 Insert undercarriage post into hole in body bottom as shown. With headlight facing out, insert posts into double holes in body bottom. Place holes in machine guns over posts on sides of body bottom. (ILL. 4)

- 6 Insert tabs on console into holes in body top. (ILL. 6)

- 8 Place G.I. Joe figure in seated or prone position with feet in footholds as shown. (Figure sold separately.) (ILL. 8)

- 9 Peel and apply labels, as shown. (ILL. 9)
