NIGHT STRIKER™ INSTRUCTIONS

Remove all pieces from plastic frames. If you have difficulty, use safety scissors.

- 1 Insert tabs on compartment cover into slots underneath Night Striker. Snap into place. (ILL. 1)

- 2 Place dashboard into place on bridge. (ILL. 2)

- 3 On the deck, snap windows over tabs on window frame. Repeat with other window. (ILL. 3)

- 4 Attach tabs on deck into slots on body assembly. Snap into place. Insert tabs on windscreen into slots and snap onto top of bridge. (ILL. 4)

- 5 Line up post on boarding ramp with hole on liner and press into place. Line up posts on ramp with holes in front of deck and snap in place. (ILL. 5)

- 6 Insert windshield over tabs on cockpit door and snap into place. Snap posts on cockpit door into slots in cockpit. (ILL. 6)

- 7 Line up gear box as shown with holes for the props facing rear, snap gear box into rear of deck. (ILL. 7)

- 9 Slide notch on outside of propeller shroud into slot in deck. Push shroud forward into place. Push and rotate shaft into gear box until it fits in proper position. Repeat with other propeller shaft. (ILL. 9)

- 11 Place engine covers over engines. Fit a cap over front of each cannon. Set each cannon into mount on top of deck. (ILL. 11)

- 13 Line up tab of missile launcher dividers with slot in back of missile box. Snap dividers into place. Repeat with other missile box. (ILL. 13)

- 8 Insert propeller shaft through hole in propeller shroud. Bend hinge of vertical vanes back and forth four times to loosen. Insert post on bottom of vertical vane to propeller shroud. Attach top of vane in same manner. Repeat other vane. Place post on bottom of vertical vane into hole in link bar. (ILL. 8) Repeat with other shroud.

- 10 Insert posts on horizontal vanes into holes of vertical vanes. To spin propellers, push down on button. (ILL. 10)

- 12 To attach retainers, position front tabs under ridge and snap back tabs into place. Raise cannons for battle action. (ILL. 12)

- 14 Place missile launcher arm into hole in deck and snap into place. Repeat with other arm. Attach clips on bottom of missile boxes to launcher arms. (ILL. 14)

- 15 Snap clips on machine gun over bar on turret. Repeat with other gun. Insert each turret into place on deck of Night Striker. (ILL. 15)

- 16 Snap each axle on sled rollers into clips on bottom of sled. (ILL. 16A) Insert tabs on sled shroud into slots in sled. (ILL. 16B)

- 17 Place sled release button over post on right side of deck. Open lower compartment door in front of Night Striker. Insert sled into lower compartment and push all the way back. To launch sled, push down on button. (ILL. 17)

- 18 To assemble cycle, snap front wheel between fork. Place back wheel and fork between halves of cycle as shown. Press halves together. (ILL. 18)

- 19 Press halves of depth charges together to form six depth charges. Squeeze posts on depth charge release into holes in mount on deck. Place depth charges onto slide ready for action! (ILL. 19)

- 20 Insert G.I. Joe, figure (sold separately) into bridge turrets, cycle or sled. Insert wheels of cycle into place on deck. Insert missiles into missile boxes. (ILL. 20)

- 21 Peel and apply labels as shown.
