G.I. JOE H.A.L. (1982)

Heavy Artillery Laser • Restoration Checklist & Value Tracker

ACQUISITION DATE:	.....	**ACQUISITION PRICE:**	$.....
TOWING HITCH:	☐ Intact ☐ Broken Ring Tab	**TARGET COMPLETION:**	.....

> ***Collector's Notes:*** *Released in the inaugural 1982 wave, the H.A.L. (Heavy Artillery Laser) is a classic towed artillery piece. Because it relies heavily on small plug-in details like computer plugs, a dual hose system, and stabilizing outrigger legs, completing a loose unit requires a careful audit of easily misplaced items.*

1. COMPONENT PARTS INVENTORY CHECKLIST

HAVE	PART NAME / COMPONENT DESCRIPTION	TYPE	RARITY / RISK	NOTES / CONDITION

3. 1982 H.A.L. MARKET VALUATION INDEX

Estimated market valuation baselines for loose and boxed variants:

CONDITION TIER	COMPLETENESS & STRUCTURAL INTEGRITY BENCHMARKS	EST. VALUE RANGE ($)
Incomplete / Base Trailer	Main green carriage frame and barrel only. Missing rubber tires, stabilizers, tiny round feet pads, or black generator hoses.	$10 – $20
Complete (Loose Set)	100% physically complete. Both outrigger arms, feet pads, and original flexible black vinyl lines are accounted for. No broken hitch ring.	$40 – $70
Boxed Complete / MIB	100% complete artillery laser canon station packed inside its clean, vibrant original 1982 Hasbro retail box with blueprints.	$130 – $250+

4. CLEANING & CUSTOM RESTORATION NOTES

Log steps like dirt removal, hitch ring stress line repairs, plastic washing, or custom reproduction sticker replacements.
