

G.I. JOE U.S.S. FLAGG (1985)

CVN-99 Aircraft Carrier • Master Preservation Checklist & Value Tracker

ACQUISITION DATE:		ACQUISITION PRICE:	\$.....
HULL CONDITION:	☐ Solid ☐ Warped ☐ Tab Damage	TARGET COMPLETION:	

***Fleet Commander Note:** Spanning over 7.5 feet, the 1985 U.S.S. Flagg is the ultimate holy grail of G.I. Joe collecting. Due to its gargantuan size and hundreds of fragile, tiny components, few survive 100% complete. Super-rarities like the microphone, keel, and mast support clips dictate thousands of dollars in market value fluctuations.*

1. HULL & FLIGHT DECK SUPERSTRUCTURE CHECKLIST

HAVE	PART NAME / COMPONENT DESCRIPTION	TYPE	RARITY / RISK	NOTES / CONDITION
☐	Keel Sections (2x - Fore & Aft) (Massive black structural lower foundational beams)	STRUCTURE	High Value / Rare	Qty Found: / 2
☐	Hull Sides (Check all 10 Panels) (Gray exterior bow, stern, and side armor panels)	STRUCTURE	Check clips & tabs	Qty Found: / 10
☐	Flight Deck Panels (Check all 5 Sections) (Main dark gray textured top runway sections)	FLIGHT DECK	Warping Risk	Qty Found: / 5
☐	Elevator Deck & Support Arm (Lifting aircraft platform on the starboard beam side)	FLIGHT DECK	Common / Sturdy	
☐	Superstructure "Island" Walls (Inner & Outer) (Command tower structure sides)	TOWER	Common	
☐	Bow & Stern Crane Assemblies (2x Complete) (Includes bases, booms, strings, and plastic hooks)	DECK GEAR	Hooks break easily	

2. MAST, ELECTRONICS & HIGH-LOSS COMPONENTS

HAVE	PART NAME / COMPONENT DESCRIPTION	TYPE	RARITY / RISK	NOTES / CONDITION
☐	Main Electronic Sound System Microphone (Functional PA speaker mic with coiled cord)	ELECTRONICS	Extreme Grail Part	Check battery box rust
☐	Admiral's Launch Boat / Skiff (Small dark gray rescue boat nesting under structural deck)	ACCESSORY	Extremely Rare	Often missing entirely
☐	Arrestor Cable System (Complete) (Braided wire string and two matching black retaining clips)	FLIGHT DECK	High Loss Risk	
☐	Radome / Large Radar Dish Assembly (Saucer radar with base peg, top mast structure)	RADAR	Peg snaps easily	
☐	Main Mast Support Frame & Radar Fins (Tall lattice plastic tower framework with thin structural fins)	TOWER	Very High Snap Risk	Check for stress marks

HAVE	PART NAME / COMPONENT DESCRIPTION	TYPE	RARITY / RISK	NOTES / CONDITION
☐	VHF / Whip Antennas (Check all 4) (Thin, easily bent gray plastic radio transceiver poles)	SMALL PART	Extremely High Loss	Qty Found: / 4
☐	Deck Railings (Check all 15 Sections) (Snapping perimeter gray guard protective fences)	SMALL PART	End clips break off	Qty Found: / 15
☐	Admiral Keel-Haul Action Figure (Exclusive carrier commander / 100% complete variant)	FIGURE	High Value	With Gun ☐ & Hat ☐

4. U.S.S. FLAGG REAL MARKET VALUATION INDEX

CONDITION / COMPLETENESS BRACKET	STRUCTURAL INTEGRITY & CORE RARITY BENCHMARKS	EST. VALUE RANGE (\$)
Incomplete / Base Hull Only	Main hull panels and deck sections present but missing massive chunks of railings, crane components, tower mast, and microphone.	\$400 – \$800
90-95% Semi-Complete	Looks impressive and structurally whole. Has major radar assemblies. Missing only the microphone, launch boat, or specialized tiny deck railings.	\$1,200 – \$1,800
100% Complete Master	Every single peg, railing, wire, and crane intact. Working microphone system. Includes an immaculate Admiral Keel-Haul figure with gun/hat.	\$2,500 – \$4,500+
MIB / NIB (Boxed Collector)	Unassembled parts inside the original humongous Hasbro illustrated retail box. High premium for crisp box graphics.	\$6,000 – \$12,000+

5. FLEET ARCHIVAL CLEANING & REPAIR LOG

Log precise restoration events like plastic retrobrighting, bow tab structural plastic welding, or custom reproduction sticker layouts.
