### COLLECTOR'S IDENTIFICATION TIPS

- **Common Missing Pieces:** Due to their small clip-on nature and paper material, the **two individual Sandbags** and the **Paper Flag** are by far the rarest components to find intact on the secondary market.
- **Action Figures Note:** Classic packaging prominently featured *Roadblock* and *Gung-Ho* setting up defenses, but please note that action figures were completely separate purchases and never bundled inside this battle station set.
- **Hatch Verification:** Ensure that the bottom swivel tab hinges on the small escape door located on the platform floor are fully intact, as they can become brittle and snap over decades.
