<input type="checkbox"/>	1	<b>Right Leg Assembly (Blue)</b>	Cobra blue main leg strut support plating.

### MISSING PART TRACKER & INSPECTION ALERT:

This is the 1985 blue version (often found in Sears Intelligent Warfare sets or individual retail). The plastic is molded in dark Cobra blue rather than the 1983 white. Check the side latch hooks that clip the torso halves together, as they easily wear down or snap. Ensure all 4 interchangeable weapon attachments and both shoulder inserts are present.
