

Remove all pieces from plastic frames. If you have difficulty, use safety scissors.

COASTAL DEFENDER INSTRUCTIONS

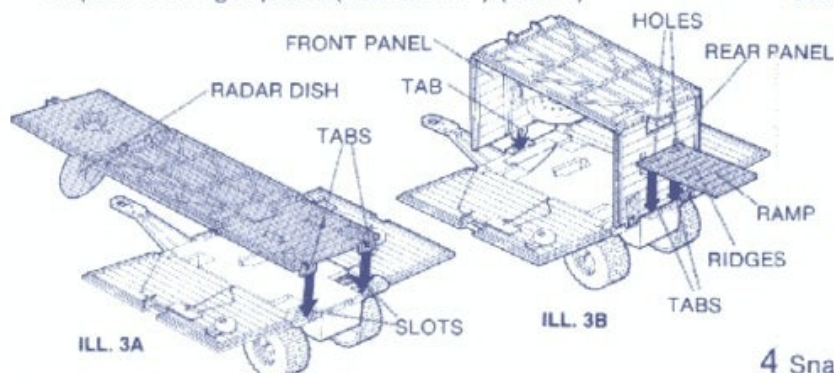

ILL. 1

- 1 Snap wheels over wheel axles. With ridge facing out, insert one post on left panel (marked "L") into one hole on left side of chassis. Snap other post into hole. Repeat with right panel (marked "R") (ILL. 1)

ILL. 2

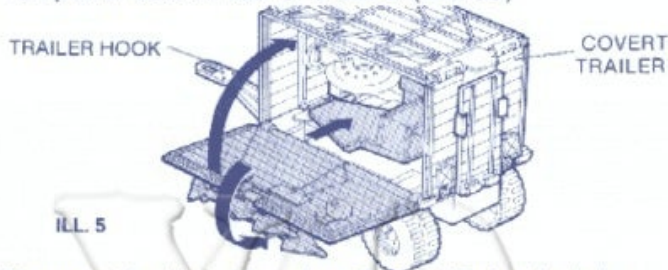

- 2 Place panels on table as shown. Snap radar dish into WIDE-rimmed hole in front panel. With tabs facing down, snap straight end of top panel over front panel joints. Snap other end over rear panel joints as shown. (ILL. 2)

ILL. 3A

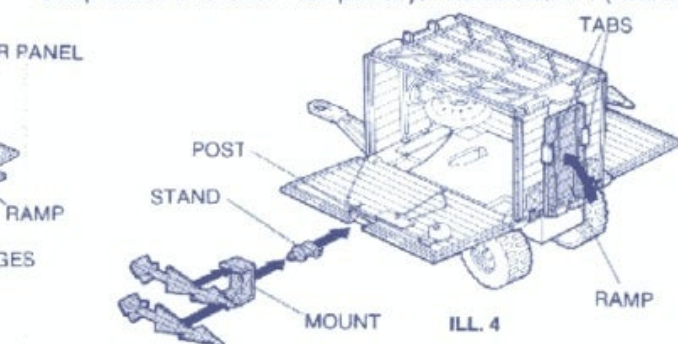

- 3 A Flip panels over so radar dish faces downward. Snap rear panel tabs into slots in rear of chassis as shown. (ILL. 3A)

B Fold rear panel up and snap front panel tab into hole in front of chassis. With ridges facing up, snap holes in ramp over tabs on rear of chassis. (ILL. 3B)

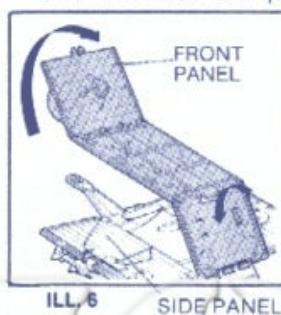

ILL. 5

- 5 Store seat inside trailer when Coastal Defender is in trailer mode. Remove missiles and store inside or position missile mount at any angle on outside of vehicle. Flip side panels up. Towable trailer hooks up to most G.I. Joe vehicles! Now, you're ready to tow Joe's secret covert trailer into an armed radar platform — here's how! (ILL. 5)

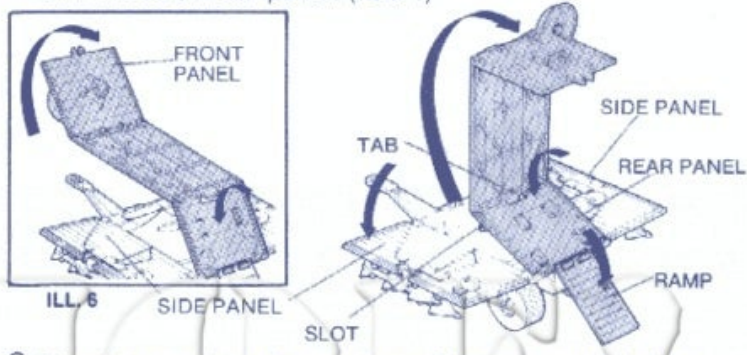

ILL. 4

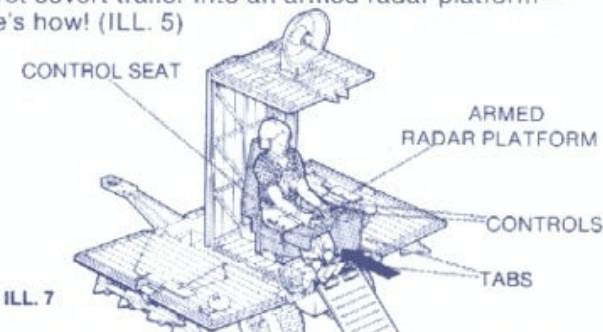

- 4 Snap posts on missile stands into missile mounts. Snap stands over posts on side panels. Fit slots in 4 missiles firmly onto missile mounts. Flip ramp up and snap under tabs on rear panel. (ILL. 4)

ILL. 6

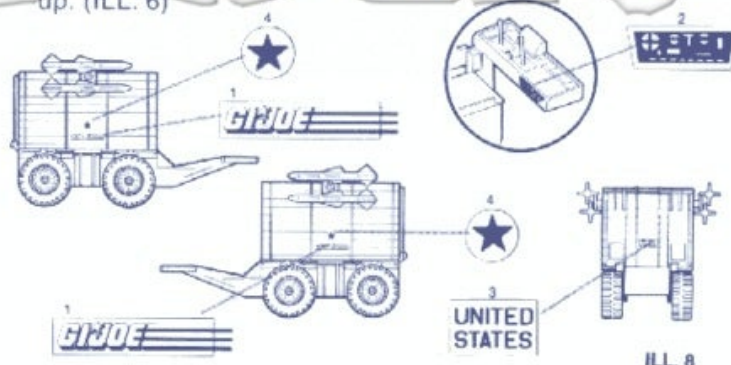

- 6 Flip side panels and ramp down. Remove seat. Lift front panel from chassis. See inset. While folding rear panel down onto chassis, swing top panel up and insert tab into slot. Fold front panel over so radar dish is facing up. (ILL. 6)

ILL. 7

- 7 Slide control seat between tabs on floor panel and place G.I. Joe hands on controls. (Figure sold separately.) (ILL. 7)

- 8 Peel and apply labels as shown. (ILL. 8)

G.I. JOE COASTAL DEFENDER

- 1) FOLD-DOWN OPERATION PLATFORMS
- 2) 360° ROTATION RADAR BASE
- 3) PRF (PULSE REPETITION FREQUENCY) ACQUISITION RADAR
