## ABOUT THE AUTHOR

I started collecting the 1960's 12" G I Joes in 1983. In 1985 I started the G I Joe Collectors Club. By 1986 my collection consisted of over 500 12" figures and every accessory known. By 1991 I appeared in over 30 publications and featured on world wide television. By 1992 the club grew to 100's of members from around the world. In March of 1991 my wife Honor and I were blessed with our first child, our son, Jonathan. This inspired me to collect the 3 3/4" figures featured in this book. In October 1991 the 12" Hall of Fame collection was introduced which is also featured in this book. G I Joe being an American institution, instilling values of good over evil was a better toy than any other on the market for my family to grow with as a bonding hobby. At first I collected loose, out of package 3 3/4" G I Joes. With the help of club members, my dedication, persistence and sacrifice, it took me just 6 months to acquire every known figure and vehicle. In 1992 I produced two G I Joe conventions. Their unprecedented success attracted 1000's of attendees from all over the world. I am the first person (of endless attempts by others) to convince Hasbro of the collectibility of Joe resulting in the attending of representatives from 5 Hasbro departments. By late 1992 my collection consisted of all 3 3/4" figures and vehicles distributed in the U.S.A., sealed in packages. Every figure pictured in this book was compared to an unopened, original mint on card figure. This insures you of the accuracy of this book. In addition, the manuscript is compared to Hasbro's product line review for G I Joe. I want to thank Hasbro for allowing me publish this book. Just as they honored me as being the world's #1 G I Joe fan I would like to thank them for being the world's #1 toy maker. I owe all the glory of all that I achieve to God, for it is through him that all things are possible. I'd like to thank my wife for the patience and understanding to support and encourage me, for she knows none of the above came free or easy.

## THINGS YOU SHOULD KNOW

All figures came with a biography/file card which consisted of 6 elements of information; a color portrait of the figure, its code name, mission, Joe or Cobra team member, qualifications and a biography. File cards were meant to be cut out and filed for reference. Keep in mind that G I Joe is distributed in over 10 countries all with their own different characters. This book is a listing of U.S.A. figures only. Represented here are 359 figures up to but not including the 1992 Battlecorps. There are over 125 vehicles of which more than 50 of them came with drivers. These driver figures were available only if you purchased the vehicle.

Several years later Hasbro direct offered most of them by mail, usually with a variation. It is my suggestion to buy the vehicles with the figures as they come out if you want them original. I have found all but 4 figures to be dated. In many cases the date on the figure or packaging is not the same as the date in which it was distributed. Many figures were released several times, different ways. One character could have different names, dates, bodies or colors which is why this book is cross referenced. For example, of the 4 versions of Duke, the Tiger Force Duke was sold in 1988. His body is dated 82/83. He is listed in the 82/83 year. The first Duke dated 83 is in the 83 (later) year. The best way to identify and match equipment is to sort them in groups such as pistols, knives, etc..., just spread them out on a flat surface and scan either the book or the pistols to match or determine if you need it. **Remember, there is an update to this book. See the order form on page 16.**

## HOW TO USE THIS BOOK

This book was designed to help you identify your figures in 3 ways and match Joes equipment. First have a figure in your hand and scan every page until you find a match. Second is if you know the characters code name, turn to the alphabetical listing of the index to see what page the figure is on. The third way is to find the date on its body (with the exception of most figures dated 82-83, see that year in the index for explanation). The 12" version is separate. Find them in the numerical listing following the 3 3/4" figures and integrated with the alphabetical listing. To be able to distinguish some of these dates you may need a magnifying glass. The date will be in 1 of 3 places. The inner thigh, the buttocks or lower back. After locating the date, turn to the page for that year and scan till you match it. Each figure pictured has a number. Find that number in the numerical index for information about the figure. If the number in the photograph has an\* beside it then there is some information I feel you should know. All figures have a name and most have a mission or assignment. The numerical index lists the name, mission identification of the figure as it appears on the package it came in and what number it is in this book. The alphabetical listing has just the code name and what number it is in this book. The order in which the figures are indexed and photographed are as follows. The first priority is the year on its body. Within each year the figures have this order; G I Joe team members first, then Cobra or the enemy, then G I Joe team drivers, Cobra drivers, mail-ins (if any) and/or special teams. Any figure sold with a vehicle is listed as a driver. A double arrow pictured with accessories indicates belonging to both figures.

## ACKNOWLEDGMENTS

I give all the glory of all my accomplishments to God. For through him all things are possible. I would like to thank David S. Lane Jr. & Ted Issacs for proof reading and assuring the accuracy of this book. David through his Steel Brigade club has kept the spirit of G I Joe alive for many 3 3/4" collectors by establishing an international network. I would also like to thank Lila Ayala, Greg & Patricia Mullen, Cheryl Ayotte, Dick & Tina Whittick of Cotswold's, Thomas Wheeler, Bob Quarm, Ben & Matthew Boccuzi, Tom & Andrew Bobb, Marc & Nancy Bement and Lanny & Taura Lathem, all of whom are club members, and who have either helped me acquire key pieces for my collection or have inspired and encouraged me to fulfill a dream. I would like to thank Craig Hedges & Peter Torres who have helped teach me what I needed to know about modern photography, and Ernie & Kenneth Tham for lending me the camera. The following people at Hasbro who made this book happen, I cannot thank enough. They are Kirk Bozgian, Greg Berndston, Dave Dubosky, Sandy Cabral, and last but not least Vinny D'Alleva, what a guy!
