Collector's Notes: The 1982 J.U.M.P. (Jet Mobile Propulsion) pack is a fan-favorite piece of early G.I. Joe tech. Despite its small size, completing this set is notoriously tricky. The thin vinyl hose dry-rots, the clear laser effect visor is frequently scratched or lost, and the small control handles easily snap off or go missing.

1. COMPONENT PARTS INVENTORY CHECKLIST

HAVE	PART NAME / COMPONENT DESCRIPTION	TYPE	RARITY / RISK	NOTES / CONDITION
<input type="checkbox"/>	Jet Pack Main Body (Olive green back-mounted propulsion rig with peg hole)	MAIN BODY	Common

3. 1982 J.U.M.P. MARKET VALUATION INDEX

Estimated market valuation baselines for loose and boxed variants:

CONDITION TIER	COMPLETENESS & STRUCTURAL INTEGRITY BENCHMARKS	EST. VALUE RANGE (\$)
Incomplete / Base Pack Only	Just the main green jetpack or the silver launch platform base. Missing hose, handles, thruster nozzles, or clear yellow visor.	\$10 – \$18
Complete (Loose Set)	100% physically complete. All small components like nozzles, steering levers, original intact vinyl hose, and clear shield are present.	\$30 – \$55
Boxed Complete / MIB	100% complete jet mobile propulsion unit packed inside its clean, vibrant original 1982 Hasbro retail box with blueprints.	\$90 – \$180+

4. CLEANING & CUSTOM RESTORATION NOTES

Log steps like dirt removal, replacing dry-rotted hoses with period-accurate vintage tubing, or matching reproduction decals.
