

G.I. JOE VEHICLE INVENTORY

Value & Missing Part Complete Tracker • Official English Resource

DEFIANT: SPACE VEHICLE LAUNCH COMPLEX

1987

Massive multi-vehicle space exploration and launch facility playset.

ACQUISITION DATE	CONDITION / GRADE	ESTIMATED VALUE (\$)	MISSING PARTS COUNT

GOT	QTY	PART NAME (OFFICIAL ENGLISH)	SPECIFIC IDENTIFICATION REFERENCE DETAILS
☐	1	Crawler/Gantry Base	Massive treaded rolling platform that transports and elevates the shuttle.
☐	1	Space Shuttle Defiant	Large white orbiter spacecraft with opening cargo bay doors.
☐	1	Booster Gantry Ship	The massive atmospheric booster stage that carries the shuttle.
☐	2	Gantry Laser Cannons	Heavy defense laser turrets mounted on the gantry framework.
☐	1	Shuttle Tail Fin	Vertical stabilizer fin snapping into the rear of the orbiter.
☐	2	Umbilical Fuel Hoses	Flexible black or grey hoses connecting the booster to the gantry.
☐	4	Crawler Drive Tracks	Continuous hard plastic track assemblies underneath the crawler base.

MISSING PART TRACKER & INSPECTION ALERT:

The absolute holy grail of fragility. The internal gear mechanism that cranks the massive booster gantry upward routinely strips its plastic teeth. The small doors, gantry railings, and umbilical cords are almost always missing or broken.
