

G.I. JOE VEHICLE INVENTORY

Value & Missing Part Complete Tracker • Official English Resource

SNOW CAT 1985

Arctic tracked half-track ski-missile launch vehicle.

ACQUISITION DATE	CONDITION / GRADE	ESTIMATED VALUE (\$)	MISSING PARTS COUNT
_____	_____	_____	_____

GOT	QTY	PART NAME (OFFICIAL ENGLISH)	SPECIFIC IDENTIFICATION REFERENCE DETAILS
<input type="checkbox"/>	1	Snow Cat Main Chassis	White/light gray body with bright orange accents and front cabin.
<input type="checkbox"/>	1	Rear Missile Support Rack	The elevate-and-swivel framing holding the heavy ordnance.
<input type="checkbox"/>	4	Large Yellow Ski-Missiles	Large iconic missiles loaded into the rear launching frame.
<input type="checkbox"/>	2	Front Bumper Halogen Lights	Small black or yellow light housings snapped into front grill.
<input type="checkbox"/>	2	Rear Track Assemblies	Molded wheel housings driven by short continuous black rubber bands.
<input type="checkbox"/>	2	Windshield Wiper Assembly	Tiny separate black wiper blades snapped onto front cab windows. EXTREMELY RARE.
<input type="checkbox"/>	1	Removable Engine Cover Hatch	White hood plate protecting engine detailing.

MISSING PART TRACKER & INSPECTION ALERT:

The tiny black windshield wipers are the single most difficult parts to find in all of 1985 GI Joe collecting; they pop off effortlessly and disappear into carpets. Also check if the tiny tabs on the engine cover are snapped.
