NIGHT SHADE™ INSTRUCTIONS

Remove all pieces from plastic frames. If you have difficulty, use safety scissors.

ACTION LEVERS

LOWER HULL

ILL. 1

- 1 Fit action levers into slots in hull as shown. Slide them all the way to the back. (ILL. 1)

ENGINE INTAKES

COCKPIT

- 2 Fit cockpit into place. Place engine intakes into position. Put lower hull aside. (ILL. 2)

UPPER HULL

ILL. 3

- 3 Snap cannons into upper hull with posts facing rear. (ILL. 3)

CANNONS

DOORS

PINS

ILL. 4

- 4 Snap cannon doors onto pins on cannons and close doors. First hook front tab of upper hull under front of white lower hull. Then snap back and side tabs into position. (ILL. 4)

EXHAUSTS

RUDDERS

ILL. 5

- 5 To operate cannons, slide action levers. Attach exhaust to hulls as shown. Place bottom pin of rudder into hole on back of hull as shown. Snap top pin into top hole. Repeat with other rudder. (ILL. 5)

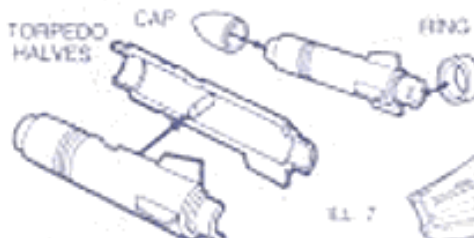

CANOPY

ENGINE COVER

ILL. 6

- 6 Snap engine cover over engine with handle toward rear. Press canopy posts with your thumbs into hinges in hull. (ILL. 6)

Peel off labels and apply as shown.

ILL. 7

- 7 Press torpedo halves together. Press cap over front and snap ring over back of torpedo. Repeat with other torpedo. Press torpedo or G.I. Joe figure, sold separately, onto peg on bottom of Night Shade. (ILL. 7)
